Therese Michel

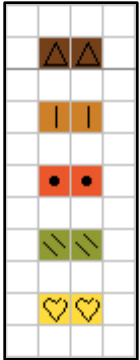

Old French sampler , stitched by Therese Michel in 1871 when she was 8 years old.

The original has marks where the colours ran. The sampler is stitched on rough canvas, with threads that resemble DMC cebelia . I charted it as it is . There were a few mistakes where Therese lost a little count of the threads, but overall it is very well executed considering the embroidress was only 8 years old.

The number 8 for her age is stitched in two strands, yellow and red.

145 x 109 stitches
26,3 x 19,8 cm on 14 ct

DMC

433 Dark brown

435 Light brown

815 Red

470 Green

725 Yellow

These colours are a suggestion, if you want to stitch the sampler as close to the original as possible.

You could also do it in variegated threads, or any other colour combination
