Legend: FrenchKnots

DMC 972 canary

Legend: BackStitch Lines

DMC 310 black
DMC 972 canary (or metallic gold)

Linen

28 ct vintage/ natural linen

Instructions :

Use two strands of floss for the embroidery, and one strand for the back stitch.

This little angel has a lot of back stitch which gives it character, but you need to be extra careful to keep it nice and crisp.

Start by stitching all the cross stitch, half cross stitch, and petit point for the face and hands.

Next, use a sharp needle and do the backstitch with a single thread of black for the details, and yellow (or gold) for the little sparkles.

Just for fun, why not add some gold beads to the gown, or use some metallic threads.

Now, if you really do not feel comfortable with petit point stitches, then just go ahead and use regular cross stitch... it will still look lovely !
